## GOAT PRODUCERS

## The integrity system for goat producers

Regardless of the breed of goat you run or whether your enterprise is about meat, dairy or fibre, everyone in the goat industry has an important role to play in the red meat integrity system.

In the goat industry, levies are required to be paid on all transactions and this money helps to fund the Australian red meat integrity system.

Join us to find out more about the foundations of Australia's red meat integrity system – Livestock Production Assurance (LPA), the National Livestock Identification System (NLIS) and LPA National Vendor Declarations (NVDs).

This system means customers around the world trust Australian red meat is safe, ethically produced and high quality.

Join us to find out more with discussion covering:

- LPA accreditation and audits
- NLIS transfers and reconciliations
- Ensuring your integrity record keeping in order
- How to start using the faster, easier new eNVD platform
- Linking all your accounts in one place using myMLA
